TRADE! You like
to patronize those concerns
who are in business to stay.

It is natural to expect that such business establishments always stand back of what they sell.

The advertising in this Directory is suggestive of the stability and permanence of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE PUBLISHERS

INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1942 edition of the Gastonia City Directory, which also includes Arkray Mills Village, Arlington Heights, Arlington Mills Village, Armstrong Development, Brookwood, Dixon Mills Village, Fairmont Park, Flint Mills Village No. 1, Flint Mills Village No. 2, Forest Hill, Groves Mills Village, Hillcrest, Linwood Park, Mutual Mills Village, Myrtle Mills Village, Osceola Mills Village, Ruby Mills Village, Seminole Mills Village, Victory Mills Village, West View Heights and Winget Mills Village. A new feature, the designation of homes and places of business having telephones, marks this edition.

Confidence in the growth of Gastonia's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Gastonia to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Gastonia Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 29 to 375, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Gastonia and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 40, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Gastonia and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Gastonia, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 417 to 466, on yellow paper. This department lists the names of all business and professional concerns of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community.

The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 469 to 538. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A feature of this section is the designation of tenant-owned homes. A new feature is the designation of homes and places of business having telephones.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Gastonia and vicinity.

The Gastonia Directory Library

Through the courtesy of the publishers of the Gastonia City Directory, a Directory Library is maintained in the offices of the Gastonia Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Churches—29, representing 12 denominations.

Industry—Chief industry of city and surrounding terri-
tory is manufacturing. 85 manufacturing establishments,
employing approximately 20,000 men and women, and paying
wages of \$10,500,000 annually. Principal manufactured prod-
ucts: Cotton yarn, textile machinery, sewing thread, tire
fabric, bedspreads, Army uniform cloth, and miscellaneous
ordnance material.

Trade Area—Retail area has radius of 25 miles, with over
250,000 population.

Newspapers—1 daily.

Hotels—4, with total of 240 rooms.

Railroads—3: Southern, Carolina & Northwestern, and
Piedmont & Northern (electric).

Highways—U. S. 29, 74 and 321.

Airports—2 landing fields on outskirts of city. 2 airports
near Charlotte, about 15 miles distant.

Amusements—Largest auditorium in city seats 1,654 per-
sons. 5 motion-picture theatres, with total seating capacity
of 3,200 persons. 2 golf courses.

Hospitals—4, with total of 294 beds.

Education—10 public schools, including 2 senior high
and 1 junior high. Number of pupils in public schools, 5,844;
teachers, 153. Value of public school property, \$1,750,000.

Public Libraries—1, with 28,000 volumes.

City Statistics—Total street mileage, 55, with 32.5 miles
paved and several miles under construction. Miles of gas
mains, 30.5; sewers, 66.56; electric street railway, 4. Number
of water meters, 3,993; light meters, 4,600; gas meters, 915.
Capacity of water works, 4,500,000 gallons; daily average
pumpage, 2,100,000 gallons; miles of mains, 72.25; value of

plant, \$1,085,587.55. Fire department has 24 men, with 2 stations and 6 pieces of motor equipment. Value of fire department property, \$72,000. Police department has 33 men, with 1 station and 5 pieces of motor equipment.

History and Location

The area of which Gastonia is the trade center began to be settled about the year 1735 by Scotch-Irish and Germans who had previously settled temporarily in Pennsylvania. These sturdy pioneers were attracted by the genial climate, the numerous springs and streams, and the fertile, virgin soil. It should be said in testimony of their fairness and right living that the powerful tribe of Catawba Indians, into whose midst the settler came, assumed a friendly attitude toward

The Heart of Growing Gastonia's Business District

their white brothers and often fought with them against other Indian tribes and also in their conquests for freedom during the Revolutionary War. It is not surprising to find from the pages of history, therefore, that the battle of Kings Mountain, the turning point of the Revolutionary War, should have been fought twenty miles from Gastonia by those early pioneers who prized their religious and political freedom so highly.

Romantic Growth

The manufacturing industry began to develop in this community in 1848 when the Mountain Island Cotton Mill was built. During the next 24 years only one other industry came into being, and it was not until 1872, after the War

Hydro-Electric Power Plant

**Scene on the Famous Wilkinson Boulevard (U. S. No. 29)
Leading East from Gastonia, Sixty Feet Wide, Four
Traffic Lanes, Carrying the Heaviest Traffic of Any
Highway in the State of North Carolina**

between the States, that real industrial development began. In 1888 there were eight manufacturing plants in the county.

It was in 1872 that the first railroad was built through Gaston County, making available to the manufacturers of the area raw material supplies and the consuming markets of the world.

Gastonia was a cross-roads village sixty years ago, with a population of 236. It was incorporated as a town in 1877, and the charter was amended in 1910, changing the name from the Town of Gastonia to the City of Gastonia.

Each decennial census has recorded a marvelous growth in population, and the growth of the city's industrial and business concerns has kept pace with the increase in population. This transformation was wrought almost entirely by native sons of Gaston County who were men of vision and who builded well the foundation of a great industry in the South.

Industrial Supremacy

Today Gastonia has 46 cotton mills, with 600,000 spindles, a mill capitalization of more than \$18,000,000, and an average daily payroll of approximately \$30,000.

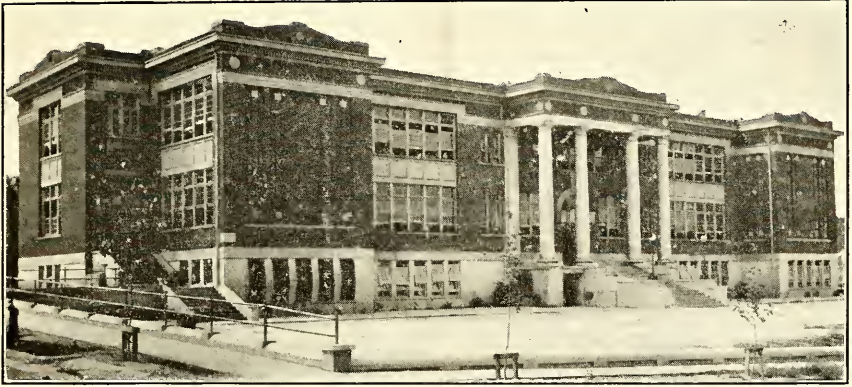

One of the Largest Tire Fabric Plants Under One Roof in the World, Located in Gastonia

Gaston County at the present time has 105 textile plants, not to mention the various other smaller and allied manufacturing establishments.

Today the sons of the early pioneers are still carrying on with native-born Americans as employees, with complete understanding of each other and an absence of friction in industrial relationship. According to the 1940 U. S. Census, only .7% of Gastonia's population was foreign-born. This enviable position, together with other favorable factors of climate, location, etc., induced the Firestone Cotton Mills to locate their Southern tire fabric manufacturing plant in Gastonia in 1935.

Industrial products of the county include: Cotton yarns, tire fabric, textile machinery, sewing thread, bedspreads, crocheting and knitting yarns, labels, gears, weavers' knot-ers, roller covering, dress goods, sheetings, leather belting, silk, rayon, mattresses, furniture, textile supplies, hosiery, shoe laces, Army uniform cloth, miscellaneous ordnance materials, oil filter refills, damask, novelties, and other articles.

One of Gastonia's Seven Elementary Schools

The Only Cathedral Abbey in the U. S., Ten Miles East of Gastonia

Gastonia Country Club

Municipal Golf Course, Gastonia

A Gastonia Community House

Partial View of North Carolina Orthopedic Hospital

Electricity is purchased wholesale from the Duke Power Co. and retailed by the City to residential and industrial users.

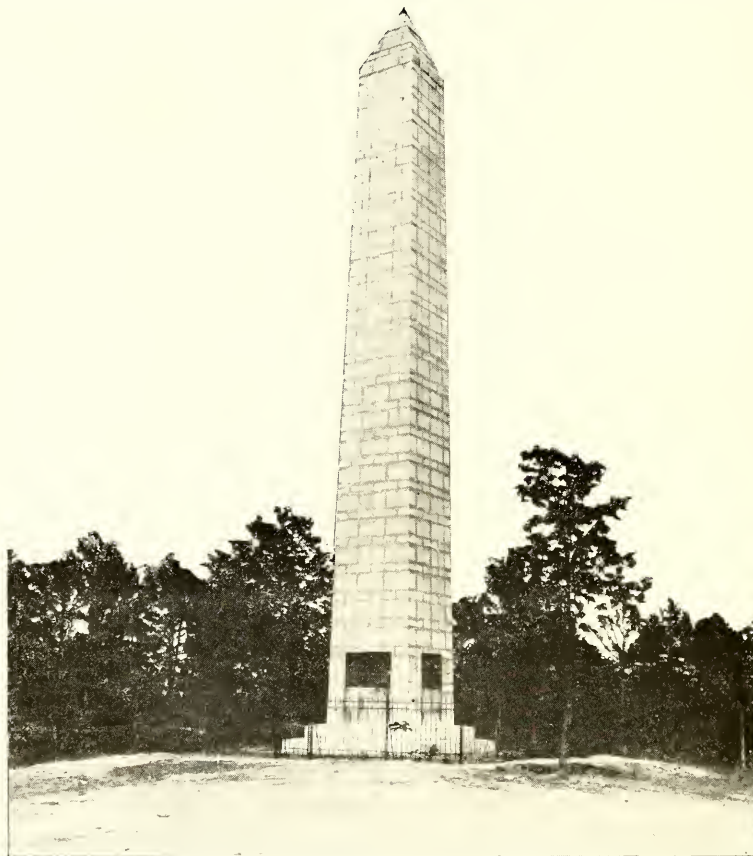

The average fire loss during the past five years has been less than the expenses of the Fire Department, and the per capita fire loss is far below the national average.

Closely allied with the city's favorable financial position in reference to industry, there should be mentioned also North Carolina's stable government, which is fair to capital, fair to labor, and possesses a sympathetic understanding of industry.

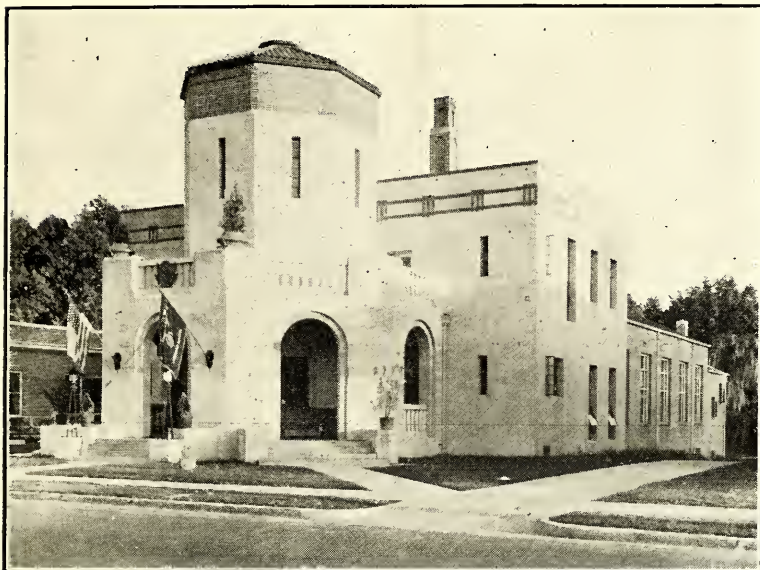

Gastonia's financial institutions, consisting of two strong national banks and two thriving building and loan institutions, afford ample facilities throughout this trade area.

Civic Life

The moral atmosphere of any city is indicated by the facilities which it has provided for religious worship. Gastonia is a church-going city, with 29 churches representing practically all the well-known denominations—Protestant, Catholic and Jewish.

Kings Mountain Monument—One of the Several Monuments at Kings Mountain Battleground, Now a National Military Park, Twenty Miles West of Gastonia. Thousands of Tourists Visit This Historic Spot Every Year

Memorial Hall—Gastonia's Gift to Her Veterans of All Wars—Dedicated 1930

Gastonia's Splendid Public Library

Gastonia is also proud of its school system, which consists of ten modern school plants, with property valuation of \$1,750,000, and an enrollment of 5,844.

Gastonia has two splendid general hospitals for white people and one for Negroes. In addition, there is located here the North Carolina Orthopedic Hospital, the only State-owned and State-maintained institution of its kind in the Southern States. It has provisions for inmates of both races.

Gastonia has one modern hotel and several smaller hostleries, several large apartment houses, and a number of good private boarding houses. Five modern theatres, with total seating capacity of 3,200, afford ample amusement facilities.

The value of healthy civic clubs is thoroughly appreciated in Gastonia. Strong units of Rotary, Kiwanis, Civitan, Lions, Altrusa and Pilot clubs are rendering valuable service

Gaston County Peach Orchard

to the city. An elegant club building is owned by the Gastonia Woman's Club, and the leading fraternal organizations are represented. A splendid clubhouse, golf courses, swimming pools, tennis courts, parks and playgrounds afford ample opportunities for healthful recreation.

For the prospective resident, Gastonia is favorably situated in many ways. While the City is located near the busy marts of trade, in less than three hours of travel by automobile a Gastonian can be in the incomparable scenery of the mountains of western North Carolina, the "Land of the Sky." In three hours he can journey to the famous Pinehurst and Southern Pines winter resorts. The famous Atlantic beaches can be reached in five or six hours. One night of travel will place him in most of the big Eastern cities.

Trade Area

Based on the 1940 U. S. Census, the population in a 75-mile radius of Gastonia was approximately 1,700,000, with a spendable money income of over \$500,000,000.

According to the U. S. Business Census of 1939, the value added by manufacture in Gaston County was \$25,649,694.

Although the trucking industry has been developing rapidly, Gaston County still imports thousands of dollars' worth of food that could be raised profitably in the county.

Opportunities

The city's industrial population challenges the farmers of the county to grow food and feed crops.

Dairying and poultry farms have made notable strides in the past few years, but the possible field of development has just begun.

Fruit-growing has become an important item in Gaston County. No finer peaches can be grown anywhere, and an ample market is close at hand.

The county has the distinction of being the fourth pure-bred dairy sire county in the U. S., and the first in North Carolina.

The natural advantages which induced the pioneer forefathers to locate here still exist and, with the addition of the vast industrial empire and the phenomenal growth in population, the advantages have been augmented.

The above legend is only a brief summary and contains only a few of the high-lights of the many opportunities, industrial and otherwise, that exist today in Gastonia and Gaston County. Those desiring to take advantage of the opportunities offered by this hustling Piedmont city of the New South are cordially invited to write directly to the Chamber of Commerce at Gastonia.

Municipal Lake, Gastonia

“When In Doubt, Play Trumps”

How many times have you heard that trite statement? When in doubt about the location of an address; the proper spelling of a name; a correct address; in fact anything pertaining to your city or any other, the

CITY DIRECTORY

is your trump card. A few moments spent and a few pages turned, presto—the CORRECT information is yours. Use the Directory. Add to your efficiency by being sure you're right.

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.**

**HOME
OWNER**

THE HOME-OWNER SYMBOL, in the Household's Guide of the New City Directory, designates Home-owners on every Street and Avenue in the city. As a means of Checking Credits, conducting Direct Mail Campaigns, Sales Planning, Prospect Lists, etc., it is of invaluable assistance.

THE BELL SYMBOL designates Telephone Subscribers and appears in the Household's Guide following street numbers.

NEW FEATURES and DEPARTMENTS are constantly being adopted in our efforts to improve and add to the recognized value of the City Directory service demanded by the public.

Fine Furniture

Does Not Necessarily Cost a Great Deal

The satisfaction gained from dressing up the home with modern furniture, carefully selected to fit each room, is ample repayment on the installment. Even a few pieces can alter and enhance the present ensemble; odd corners can be dressed up and made comfortably livable.

*May we visit your home
and suggest at no extra
obligation to you?*

FACTS!!

ABOUT CITY DIRECTORY CIRCULATION

The true value of advertising circulation is circulation consulted—"User Circulation."

To be exact by actual survey in twenty-four average American cities by actual count each city Directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand Directories sold there is an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

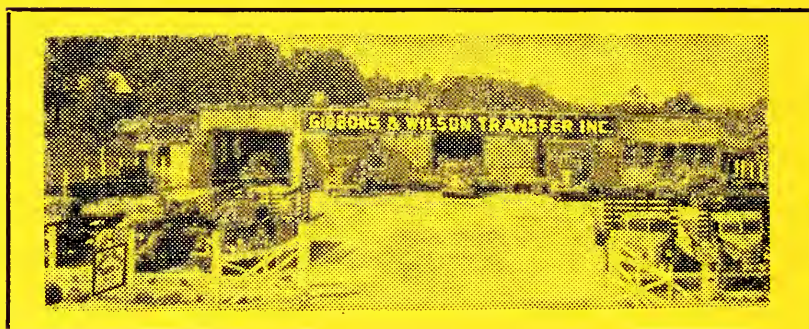

1,067,500

Consultations or "User Circulation"

The City Directory offers the most Specific Point of Contact advertising known

TRADE! You like
to patronize those concerns
who are in business to stay.

It is natural to expect that such business establishments always stand back of what they sell.

The advertising in this Directory is suggestive of the stability and permanence of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

HILL'S GASTONIA

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1942

Copyright, 1942, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes householders and places of business having telephones.

Figures in parenthesis denote old numbers.

(c) denotes colored.

THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN
ANY OTHER MEDIUM
ON EARTH

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be

made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
